

Our Commitment

OPED UK Ltd are conscious of the impact we have on the environment and we are aiming to reduce and offset this impact through carbon reduction measures, with the goal to achieve carbon neutrality by 2050.

Baseline emissions report - 2024

The reported data for all scopes comes from standard reporting requirements including but not limited to business and commuting mileage, energy and water consumption and inbound freighting.

Downstream emission costs for disposal of our products (Scope 3) are based on the assumption that disposal and recycling of our products are done so as per our recommendations.

EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0.56
Scope 2	1.43
Scope 3 (Included Sources)	65.68
Total Emissions	67.67

Equating to an average per employee impact of 9.67 tCO₂e

Current emissions report - 2025

2025 emissions data will be available in January 2026 for the 2026 CRP report.

Emission reduction target

To reduce our carbon footprint to achieve net zero by 2050, we will need to reduce our figures an average of 4% per year against our 2024 baseline emissions report. Although we are already reporting relatively low emission outputs, through further projects to reduce our impact emissions as well as offset against them, we are confident to meet the goal of reducing 20% of our total emissions by 2030.

CRP projects in progress/completed

- Warehouse lighting replaced with energy efficient LED units
- Marketing material printed in house where possible to reduce supplier emissions
- Reduced packaging and eco friendly paper tape for despatched shipments
- Meetings held increasingly via video calls to drastically reduce mileage emissions.
- Electricity supplied by green energy provider (84.8% renewables, 15.2% Nuclear)
- Reuse supplier packaging where possible
- Replaced printed/coloured packaging to plain undyed cardboard

CRP projects – Long term objectives

- Further exchange of lighting to LED until complete
- Install motion activated lighting in more areas of the warehouse and office spaces
- Work with suppliers to deliver in more sustainable means (reduced plastic packaging, use hauliers with carbon reduction priorities)
- Encourage sustainable commuting to those with access to it (cycling, public transport)
- Work with sister company (OPED GmbH) for possible repurposing of used products to reduce end of life disposal
- Invest in carbon offset programmes

Declaration and sign off

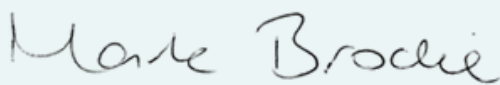

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard[1] and uses the appropriate Government emission conversion factors for greenhouse gas company reporting[2].

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard[3].

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of OPED UK Ltd:

Managing Director, OPED UK Ltd
