

## Our Commitment

OPED UK Ltd are conscious of the impact we have on the environment and we are aiming to reduce and offset this impact through carbon reduction measures, with the goal to achieve carbon neutrality by 2050.

## Emissions report – 2025

The reported data for all scopes comes from standard reporting requirements including but not limited to business and commuting mileage, energy and water consumption and inbound freighting.

Downstream emission costs for disposal of our products (Scope 3) are based on the assumption that disposal and recycling of our products are done so as per our recommendations.

EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	8.496
Scope 2	1.008
Scope 3 (Included Sources)	41.262
<b>Total Emissions</b>	<b>50.77</b>

Equating to an average per employee impact of 8.46 tCO<sub>2</sub>e

## Current emissions report – 2026

2026 emissions data will be available in January 2027 for the 2027 CRP report.

## Emission reduction target

To reduce our carbon footprint to achieve net zero by 2050, we need to reduce our figures an average of 4% per year against our 2024 baseline emissions report. Our goal to meet the 20% reduction of our total emissions by 2030 has already been achieved as a 25% reduction against baseline was reported from the adjustments made in 2025 through emission reduction projects.

## CRP projects in 2026

- Reduce mileage requirements for sales team (Increased virtual meetings)
- Reduce Office commuting days for certain staff members.
- Policies implemented for thermostat limit and “doors shut policy” to better regulate winter office temperatures for energy efficiency.
- Manufacturing of some items to return to Germany over Asia, which will reduce cargo freight requirements moving into 2027.

## CRP projects – Long term objectives

- Further exchange of lighting to LED until complete
- Install motion activated lighting in more areas of the warehouse and office spaces
- Work with suppliers to deliver in more sustainable means (reduced plastic packaging, use hauliers with carbon reduction priorities)
- Encourage sustainable commuting to those with access to it (cycling, public transport)
- Work with sister company (OPED GmbH) for possible repurposing of used products to reduce end of life disposal
- Invest in carbon offset programmes

## Declaration and sign off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>[1]</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>[2]</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>[3]</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
